

New! Inventory Lookup Tool

Authorized Users can now look up QTYs on hand 24/7

1 All Reps will receive invitations (to non-shared company email addresses – no Yahoo, etc.) to create a Login/Password. This invite should include a direct link to the Lookup Tool sign-in page, but it's also in the upper right corner of the site and in 'Agent Tools' under the 'Resources' area online.

2 Anyone who hasn't received an invite by July 15th, or who is new to your agency thereafter, may request access by clicking this link, submitting their information on the resulting form, and awaiting review/approval.

This page is for Authorized Users Only. If you believe you should have access, please [submit a request for review & approval at this link](#). (Requires a company email address — not yahoo, gmail, hotmail, etc.)

[Lost your password?](#)

If you forgot and need to reset your password, click here

3 After successful login, you may now search for complete or partial Part Numbers, using dashes or without them.

NOTE: Lookup will function optimally when COOKIES ARE ENABLED.

For Example, a search for just "VP" (to look up available QTYs of our LED Panel Retrofit Kits) is enough input to produce these results:

item # ▲	Qty On Hand ▲	Avail to Sell ▲	Qty in Transit ▲
VP-R-14-MU-25-9TW-A	958	957	0
VP-R-22-MU-25-9TW-A	4,356	4356	0
VP-R-24-MU-36-9TW-A	3,727	3727	0

4 Once done with your search(es), simply Logout of your session with the button on the page.

NOTE: The Lookup tool's data is refreshed four times per day on weekdays, a few minutes after 9a PST, noon PST, 3p PST & 6p PST.

Results are for convenience purposes only and do not guarantee product availability. Pls contact your Fulham RSM to solidify orders on the basis of data accessed here.
